ABSTRACT

This document is intended to present, in tables and graphs, a diversity of information on Washington State, its people, economy, and government. The information was obtained from state and federal agencies and from private businesses. The data are organized into 11 major chapters which cover the following topics (sample subtopics in parentheses): (1) population (population by age, sex, and racial categories and the federal census population from 1880 to the present; (2) economy (personal income, inflation indicators, and labor market indicators); (3) state government finance (state government organization and state employment); (4) human services (community social services, health care facilities, and veterans); (5) criminal justice (crimes and arrests and juvenile); (6) education (public and private K-12 schools, four-year universities, community and technical colleges, and vocational-technical institutes); (7) natural resources (forest products, state lands, and agriculture); (8) environment (state and federal parks, hunting, and fishing); (9) energy (energy consumption and fuel prices); (10) transportation (vehicles and drivers, airport traffic, and transit system); and (11) local government and special districts (county profiles, revenues and expenditures, and cities and towns). A listing of the agencies contributing data is also provided. (Contains an index.) (DB)

PREFACE

The purpose of the Washington State Data Book is to present, in one reference document, a diversity of information on Washington, its people, economy, and government. The information is obtained from state and federal agencies as well as private business.

The Data Book contains eleven major chapters: Population, Economy, State Government Finance, Human Services, Criminal Justice, Education, Natural Resources, Environment, Energy, Transportation, and Local Government and Special Districts. These sections represent the type of information most frequently requested by a broad range of users.

It would be impossible to compile and publish the Data Book without the cooperation of the contributing agencies. Therefore, we thank those agencies and their research staff, professional and clerical. Agency names, addresses, general information telephone numbers, and reference publications are listed in the Contributing Agencies section starting on page 289.

Every effort is made to ensure the accuracy of the data presented in the Data Book. Because the Data Book is only published every two years, much of the material is subject to frequent updates and changes and these data should not be cited as the most recent official agency information.

DATA NOTES

Many data series published in the Data Book are available in separate publications released by the contributing agencies. These source documents generally provide updated data on a more frequent and detailed basis than the Data Book. The source documents also provide data definitions and user information not included in the Data Book due to lack of space.

Please contact the contributing agency for additional data, explanations, or updated information. The contributing agencies, their addresses, telephone numbers, and some available publications are listed starting on page 269.

A County Sources and Footnotes page for the county profiles is located on page 266.

Unless otherwise noted, the time periods in this publication are either calendar year or fiscal year. The following types of fiscal year are used in the tables:

State Fiscal Year - July 1 through the following June 30.
Federal Fiscal Year - October 1 through the following September 30.
School Fiscal Year - September 1 through the following August 31.

Real or constant dollars are dollars that have been adjusted to account for the effect of inflation. This adjustment is made in relation to a base year. For example, the base year for the implicit price deflator (IPD) is 1987. Statistics from years after 1987 are adjusted down by inflation, those before are adjusted up. This allows actual (or real) changes to be observed.

Current or nominal dollars have not been adjusted in any way.

Financial data are in current dollars unless otherwise noted.

[*] Clark County portion only. The Portland-Vancouver PMSA also includes the Oregon counties of Clackamas, Columbia, Multnomah, Washington, and Yamhill. The Portland-Salem CMSA also includes the Oregon counties of Marion and Polk.

MA: Metropolitan Area - A large population nucleus, together with adjacent communities that have a high degree of economic and social integration with that nucleus.

MSA: Metropolitan Statistical Area - Relatively freestanding MA's and are not closely associated with other MA's. These areas typically are surrounded by nonmetropolitan counties.

PMSA: Primary Metropolitan Statistical Area - A large urbanized county or cluster of counties that demonstrates very strong internal economic and social links, in addition to close ties to other portions of the larger area.

CMSA: Consolidated Metropolitan Statistical Area - When PMSA's are established, the larger area of which they are component parts is designated a consolidated metropolitan statistical area.

Note: Metropolitan statistical area boundaries as of 1993. The boundaries of all the metropolitan statistical areas are county boundaries. Population, age, race, employment, public school, public assistance, transportation, county revenues, marriages, divorces, and components of change statistics are found in the Local Government section by county.

[1] Prior numbers were large because they were yearly figures rather than average monthly.

[2] AASA restricted entry to the chore services program beginning October 1993 to control caseloads and expenditures in excess of allotted levels. This policy has remained in effect throughout the 1993-95 Biennium.

[3] Includes all of the people served by Developmental Disability Community Services.

[4] Includes Group Homes, Community Institutions for Mentally Retarded, Intensive Tenant Support, Tenant Support and Alternative Living.

[5] Includes Lakeland Village and Rainer, Yakima Valley, Fircrest, Interlake, and Frances Haddon Morgan Schools.

[6] ADATSA: Alcoholism and Drug Addiction Treatment and Support Act.

[7] Figures are not unduplicated by client or between treatment types.

[8] Includes ADATSA outpatient admissions and county direct services.

[9] In October 1990, the Job Opportunities and Basic Skills Training Program (JOBS) started and the OPPORTUNITIES Program was phased out. Component/activity figures are averages. (Some component figures are duplicated.)

[10] Total number of persons placed into jobs, one or more times. Job Placement was defined more narrowly in the JOBS Program. The measurement became Job Entries and was defined as participants who were actively participating in a JOBS component either in the month of job entry or the preceding calendar month.

[11] Data for federal fiscal year (October 1 through September 30).

[12] Includes, for example, testing, education, work experience, employment prep., etc.

[1] Fiscal year ends on August 31 except prior to 1978 when the fiscal year ended on June 30.

[2] Beginning on January 1, 1975, regular property tax is collected by the state and is shown as a state fund. Local property tax shown for this and subsequent years is special levy revenue only.

[3] Effective September 1, 1981, school districts no longer received County Real Estate Transaction Tax. The responsibility for collecting those revenues was transferred to the Washington State Department of Revenue. The funds continue to be used to support K-12 education.

[4] Fiscal Year 1979 was beginning of the basic education funding formula and property tax levy limits.

[5] Fiscal Year 1995 budget excluding extensions.

[1] The calendar year in which levies are collected. Voter approval of levies is required in one of the two prior calendar years.

[2] Levy election results are those reported to SPI by county auditors.

[3] Enrollments shown for 1975-85 are October full-time equivalent (FTE) students for the prior calendar year. Enrollments shown for 1986-91 are annual average FTE students for the most recent school year ending prior to the calendar year. Enrollments shown for 1986-1995 are annual average FTE students for the prior school year.

Note: Special levies, also known as excess levies, are collected the calendar year after election. In 1976, Constitutional Amendment #64 was passed that allows levy collection to cover two years instead of one. This change took effect for levies passed in 1977 and collections for 1978 and 1979.

[1] Excess Enrollments. Specific, temporary enrollment above the state-funded enrollment level authorized by the 1991 Legislature. Prior to 1991, the enrollments had been included in the contract- or student-funded category.

[2] SVI: Seattle Vocational Institute. It joined the Seattle Community College District due to the Community and Technical College Act of 1991.

[3] Includes Workforce Training Programs

[4] Includes Excess Enrollment and SVI

Note: The Community and Technical College Act of 1991 merged the community college system and the five technical colleges and SVI. The five technical colleges are: Bellingham, Lake Washington, Renton, L.H. Bates, and Clover Park.

[1] These figures show public expenditures on education programs which prepare individuals for gainful employment which does not require a baccalaureate degree.

[2] Secondary includes monies that are currently managed by the Superintendent of Public Instruction (SPI).

[3] Post-secondary includes monies currently managed by the State Board for Community and Technical Colleges (SBCTC), and the Workforce Training and Education Coordinating Board's Job Skills Program.

Note: Expenditures for the technical colleges were reported by SBCTC rather than SPI. This accounts for most of the difference in post-secondary expenditures.

[1] The number of full-time equivalent (FTE) students in public education programs which prepare students for gainful employment which does not require a baccalaureate degree. The Superintendent of Public Instruction and the State Board for Community and Technical Colleges use somewhat different methods to calculate FTEs, but the difference is small.
[2] Most of the decline from the previous year is likely due to changes in how the students are reported.

[1] Boat trailer registrations, identified as such, ended in September 1979. They are now registered as "personal" trailers and cannot be identified as recreational vehicles.

[2] Prior to late 1975, motor homes were registered as passenger cars.

[3] Registrations for 1977 are exaggerated by the requirement to register some vehicles twice to institute the revolving biennial registration system.

[1] The Department of Fish and Wildlife plants the following varieties of trout: Rainbow, Brown, Cutthroat, Eastern Brook, Kokanee, Steelhead, Golden, and Mackinaw. Some Coho salmon planted in landlocked lakes are included in these figures.

[2] Winter run begins November 1 and ends April 30 of the following year.

[3] Columns 1 through 3 are state fiscal year rather than calendar year.

[1] Damage assessment data prior to 1989 is based primarily on major fish kill events.

[2] Includes all oil/hazardous material emergencies reported statewide. Number of cases suitable for resource damage assessments is considerably lower.

[3] Prior to 1990, issued damage assessments only. Issuance of resource damage assessments not possible in all cases. Dollar amounts are assessments of damage to the fish resource, not assessed penalties.

[4] Still in process. Before the Dept. of Ecology was able to implement the provisions of RCW 90.48.366, it was necessary to adopt WAC 173-183 and adopt formal by-laws for the Resource Damage Assessment Committee. Initiation of oil spill resource damage assessments under this new process became possible in early 1993.

[5] Reflects $5.2 million settlement of the Tenyo Maru spill which occurred in 1991.

[1] Resulting from a site's on-going production processes

[2] Demolition debris, spill materials, or clean-up wastes

[3] Hazardous waste also containing measureable levels of radioactivity

[4] Includes waste waters, recurrent, non-recurrent, and radioactive mixed wastes

[5] Total waste regulated. The same waste may be counted in each management category if the waste was handled by several categories; for example, treated and stored on-site

[6] Disposal methods include landfills and surface impoundments - to be closed as landfills

[7] Storage includes containers, tanks, waste piles, and surface impoundments

[8] Treatment methods include biological, chemical, physical, and thermal

Notes: Data prior to 1987 not comparable due to state regulatory change. Totals may not add due to rounding

[1] Total is less than the sum of individual categories because some projects require more than one type of approval.

[2] Issued by local governments for development on shorelines which cost $2,500 or more.

[3] Issued when unique circumstances related to the property create unnecessary hardships in the way of carrying out the strict letter of the master programs.

[4] Issued for projects not normally permitted in a given environment designation, but still consistent with the SMA.

[5] Washington State Department of Ecology.

Note: There are appoximately 20,634 miles of shorelines which come under the purview of the Shoreline Management Act of 1971.

[1] One barrel equals 42 gallons.

[2] Includes residential heating oil, diesel, and miscellaneous others.

[3] Prior to 1983, kerosene consumption was included in other categories.

[4] Asphalt, road oil, lubricants, and miscellaneous speciality products.

[1] One kilowatt equals 3,412 BTUs.

[2] DSI = Direct Service Industry. These industries receive electricity direct from the Bonneville Power Administration rather than a local utility. The DSIs are mostly aluminum plants.

[1] All prices are for furnaces operating at 100 percent efficiency. Valid comparisons of fuel prices by type of fuel should take furnace efficiency into account.

[2] Puget Power serves Jefferson, King, Kitsap, Kittitas, Pierce, Skagit, Thurston, and Whatcom Counties.

[3] Washington Water Power serves Adams, Lincoln, Spokane, Stevens, and Whitman Counties and parts of Idaho.

[4] Pacific Power & Light serves Columbia, Garfield, Walla Walla, and Yakima Counties.

[5] Seattle City Light serves the city of Seattle and some surrounding areas.

[6] Tacoma Public Utilities serves Pierce County.

NA - Not Available.

[1] This table includes population data for all incorporated cities and towns in existence on April 1, 1990.
[2] Date of incorporation indicates date of first incorporation. Several cities and towns have been reincorporated after disincorporation. A few special instances of this kind are covered by footnote. Great care has been taken to authenticate the date of original incorporation with the most reliable sources. It will be noted that there are certain discrepancies between the present compilation and those prepared by the Office of the Secretary of State and by the Association of Washington Cities. For the counties, the formation date in many cases is the date when they were created by the Oregon Territorial legislature. Clark County was originally created as Vancouver District in 1845. However, the first board of county government was first organized in 1850 after the 1849 Oregon Territorial legislature changed the name to Clark from Vancouver. The formation date for Spokane County is the date when it regained separate county status after having been merged with Stevens County.
[3] The census data have varied to a certain extent from one census to another. The date for the 1890 and 1900 censuses was June 1, for 1910, April 15, for 1920, January 1, and for 1930 through 1990, April 1.
[4] Auburn originally incorporated as Slaughter, name changed in 1893.
[5] Bainbridge Island originally incorporated as Winslow. In 1991, Winslow annexed the rest of the island. Name was changed officially as of January 1, 1992.
[6] Population indicated for Bellingham in 1890 represents the sum of the populations for Fairhaven (4,076) and Whatcom (4,059). The figure for 1900 was derived in the same manner. The name of Whatcom was subsequently changed to New Whatcom. Fairhaven and New Whatcom were consolidated in 1903 to form Bellingham.
[7] Carnation originally incorporated as Tolt, name changed in 1951.
[8] No population figure published for Colton in 1890. In a few instances, the precise date of incorporation of a municipality may be ambiguous. For example, the certificate of election to incorporate Colton was filed in 1890 although a certified copy of order of incorporation was not issued until 1893.
[9] Du Pont originally incorporated in 1912, disincorporated in 1926, and reincorporated in 1951.
[10] Issaquah originally incorporated as Gilman, name changed in 1899.
[11] Kalama disincorporated and reincorporated in 1890.
[12] Houghton and Kirkland consolidated as of August 1, 1968 under the name of Kirkland. The population of Houghton in 1950 and 1960 is included with the figures shown for Kirkland on these dates.

Kittitas was not incorporated until 1931, but the Census Bureau listed population figures for Kittitas in 1920 and 1930. These figures have not been included in the present table. Although LaCrosse was incorporated in 1917, the Census Bureau did not determine separately the population of LaCrosse in 1920. Selah was incorporated in 1919, but no population figure was indicated in the census reports for 1920.

La Conner disincorporated in 1886 and reincorporated in 1890.

The population figures in the published Federal Bureau of the Census reports for Medical Lake include improperly the residents of Eastern State Hospital (established in 1891) and Lakeland Village (established as a separate institution in 1915), before these institutions were actually annexed to the municipality of Medial Lake in 1947. An attempt was made by the Bureau to correct the population figures for 1910 through 1940, but apparently these adjustments did not entirely eliminate the errors in the original figures. Accordingly, the figures for 1910 through 1940 must be considered unreliable.

Mercer Island Town annexed to Mercer Island City on June 1, 1970.

Palouse originally incorporated as Palouse City; name changed in 1894.

Port Orchard originally incorporated as Sidney; name changed in 1903.

Richland originally incorporated in 1910. In 1943 it was completely replaced by a much larger planned community, the main residential area for the newly constructed center for manufacturing plutonium. The population of the old town of Richland never exceeded 279. It was dissolved as a corporate town in 1948. The new community of Richland was incorporated in 1958.

Spokane originally incorporated as Spokane Falls; name changed in 1890.

The city of Tacoma, later referred to as "old" Tacoma, incorporated in 1875. New Tacoma, a separate municipality, incorporated in 1881. In 1884, "old" Tacoma and New Tacoma were consolidated as Tacoma.

Tumwater originally incorporated in 1869, disincorporated in 1877, and reincorporated in 1883.

Union Gap originally incorporated as Yakima City; name changed in 1905.

Vader originally incorporated as Little Falls; name changed in 1913.

Although incorporated before the official census date (June 1), no figure was indicated separately in the 1890 census for the town of Winlock. The population for Winlock precinct was given as 877.

Yakima originally incorporated as North Yakima; name changed in 1918.

Westlake annexed to Moses Lake, July 5, 1972.

$ - Indicates a correction to the federal 1990 census count.
